## Isolation & Loneliness Action Networks Derbyshire

Isolation & Loneliness Action Networks Derbyshire (IsLAND) is a 3 year county-wide project that began in May 2019, funded by the National Lottery Community Fund and managed by South Derbyshire CVS.

It started life in 2012 as the Derbyshire Trusted Befriending Network (DTBN), which was funded by Derbyshire County Council and focused mainly on supporting the work of 1:1 befriending services. Funding from Derbyshire County Council ended in 2018. IsLAND will build on the work of DTBN.

The IsLAND Project aims to:

- Offer membership to groups/projects/services that tackle loneliness and isolation;
- Ensure groups/projects/services are safe and well-run through the IsLAND Quality Mark and provide support to achieve it;
- Reach more people across Derbyshire who are lonely and isolated, and help them to become more socially connected;
- Provide specialist training to members' volunteers and staff, so they are confident supporting people with more complex needs;
- Raise awareness of loneliness and its impact, recruiting more volunteers and encouraging informal social action.

## The IsLAND Quality Mark and this Directory

The IsLAND Quality Mark has been developed so that people using local services can be confident that they are safe and well-run.

Any organisation, group or service that tackles isolation and loneliness in Derbyshire can become a member of IsLAND.

To become a member, they need to be able to prove that they are safe and well run. This can be evidenced by completing the IsLAND Quality Mark, which is free of charge or through an equivalent quality standard they already hold.

The purpose of the IsLAND Quality Mark is to provide robust evidence that services are managed effectively and have procedures in place which ensure the safety and wellbeing of staff, volunteers and clients.
